MOST COMMON QUESTIONS

How is the AxisPlus® debit card different?

For the most part, your AxisPlus® debit card works just like a traditional debit card, with three important differences:

1. There is no PIN. When given the option between debit and credit, choose credit.
2. Use is limited to eligible merchants/expenses as determined by the benefit account you select.
3. Your AxisPlus® debit card cannot be used at an ATM or for “cash back” when making a purchase.

What if I don't have enough money in my account for a purchase?

If you know your remaining balance, a split tender transaction can occur and the difference would be paid out-of-pocket. Otherwise the transaction will be denied.

What if my doctor or daycare provider doesn't accept MasterCard®?

You'll need to pay with cash or check and submit a receipt to AxisPlus Benefits™ for reimbursement.
