

NEBRASKANS UNITED

FOR PROPERTY TAX REFORM AND EDUCATION

To: Nebraska State Senators

March 9, 2021

The funding of public schools in Nebraska has been criticized in different ways by different people.

Sen. DeBoer has introduced LB 132, which calls for the establishment of a School Financing Review Commission. The role of this commission would be to report to the Unicameral every two years about the funding of, and spending by, public schools. The role of the commission would not be to make decisions for the Senators, but simply to provide you with good information as you make decisions.

Nebraskans United, a group made up of education and agriculture groups in the state has been a proponent of this concept for several years. The groups identified below encourage you to adopt LB 132.
