

## SCHOOL BOARDS & STUDENT REPRESENTATIVES

Did You Know ... 17% of Nebraska's school boards have a student representative serving as a part of their board. While not a huge number, check out some of the comments from the 83% who do NOT currently incorporate student representatives on their board.

- “We do not but I think it’s a great idea!”
- “No, but we are in the process of starting it.”
- “No, but I like the idea.”
- “We do not but should consider it. We had student visitors last night which was awesome.”
- “We do not, but would be interested in hearing the roles of student representatives.”
- “We have talked about implementing this!”
- “We do not this year, but are researching and hope to have a student representative by August.”
- “I wish we did.”

A recent article from the National School Board Association (NSBA) stated that, “One way to nurture democratic citizenship is to engage students in the governing process of local school boards. By creating opportunities for students to participate in the democratic process, school leaders can help student board members to learn how to observe all laws and rules, how to resolve conflicts peacefully, how to demonstrate a commitment to the public good, and how to work for a community and cooperate with all stakeholders.”

A 2020 NSBA survey showed that over 30 states (including Nebraska) report having student board members as a local option, three require it in state law, with the remainder reporting that having students serving on local school boards was not their practice.

Specific to Nebraska, the districts who do incorporate student representatives on their board vary greatly in enrollment and location. From Mitchell to Millard, Diller-Odell to David City, districts are utilizing students in creative ways.

At Millard Public Schools (24,000 students), they have three Student Representatives, one from each High School. They each give a report each meeting and are often asked for their input from the board.

"Having such a well-rounded student representative like Kendall is incredibly beneficial to the district. He attended a training with the Board of Education centered on equity and provides a wealth of information at each Board of Education meeting. He is a critical link between the board and the student body at Grand Island Senior High School."

- Dr. Tawana Grover - Superintendent

CONTINUED FROM PAGE 1

David City (630 students) has two Student Representatives. They are appointed their Junior year with the expectation that they continue through their Senior year. David City requires their Student Reps to give monthly board reports and participate in discussions.

Enter Kendall Bartling, a Senior at Grand Island and Student Board Representative.

There is a good chance you have seen Kendall's name, face or writings over the last few months. Whether through his Op-Ed's published across the state recently on spending limits, coming across his personal website ([www.kendallbartling.com](http://www.kendallbartling.com)) which links to his blogs, social media and more, or maybe you recognized his younger-than-others face from a Zoom square as an attendee during NASB's recent Legislative Issues Conference.

We wanted to go right to the source and hear not only about his experience on the GIPS Board, but his future aspirations. Kendall has been "super involved" from a very young age. He's a band member, chorus member, and this year, an All State musician. He plans on pursuing a Bachelor's in Political Science from UNL, followed by attending law school.

This is Kendall's first year serving as a Student Rep, as GIPS utilizes one Senior student each year to serve in this role during the school year. While there is nothing in district policy about the role, there is an application process, and interested students must have demonstrated significant community and school involvement, be in good academic standing, and be willing to make the time commitment of attending every board meeting. Applicants interview with the Board President and Vice President, who choose the Rep.

NASB: What motivated you to be a student board member?

*Kendall: To extend the reach of the youth voice. I'm super dedicated to the youth voice's representation in politics and government of every stage, from school, to city, county, state and federal. This was the logical step-representing my fellow peers on a school level government board.*

What is your role as a student school board member?

*I deliver monthly reports on the condition/status of the student body, highlighting key events for the board to hear. On occasion, I bring up issues of concern to the body in those reports. I also give input on matters of the board when it comes to the student opinion.*

What have you learned since being on the school board?

*School administration, from all levels, is not as easy as it seems. But the most important thing has been that everyone involved with student education is there for one purpose and one purpose only, the betterment of the kids. And that's great to see.*

What value do you think you bring to the school board?

*Having a student there to give feedback to measures, agenda items, and proposals is a powerful tool that makes the board's job easier.*

How do you think this experience has changed you?

*Seeing the daily schedules of district leaders has given me a deep appreciation for educators, administrators, and elected officials.*

How do you communicate what you have learned and/or what is happening at the school board table with the student body?

*I hold "forums" on my social media profiles to disseminate important information to the student body through posts. I also use these stories to collect student feedback and input for the board.*

Do board members ask you questions during the meeting to allow you to express your thoughts and ideas?

*From time to time, yes. I am allowed to question a speaker just the same as any other board member, and share my opinion.*

Have you ever been invited to attend a board professional development conference or workshop? Would this be of interest to you if there was a student track to follow?

*Yes! I attended NASB's Legislative Issues Conference this year, and I really appreciated the information I was able to attain. Having a student member focused workshop would be super cool too. Being able to extend my abilities as a board representative would be great!*

Do you think that you will someday seek election to a school board?

*There will be an election for my ward in 2022. It is too early to commit just yet, but it is something I would be interested in. The seat in Legislative District 35 will be up for election in 2024 as well.*

What advice would you give to a student who is thinking about serving on the board?

*Come to every meeting with a notepad and an open mind. Write down everything, soak in as much as you can. Use and appreciate every connection you make through your role. Board members are amazing sources of information, stories, and advice.*

Final Thoughts?

*I can't stress the value of student representation enough. It is so important to have students involved, to keep that student voice strong. I highly recommend utilizing students on your board!*

## MARCH 2021 BOARD MEETING AGENDA ITEM - NDE RULE 10 AND 14 REVISIONS

### Approval, Accreditation, and Accountability Rule Development

During your March Regular Board Meetings, NASB will be facilitating a 15-minute Zoom presentation by Brad Dirksen of NDE at 7:30 PM to engage boards and superintendents!

**To:** Nebraska Public School Districts and ESU Boards of Education  
**From:** NASB and the Nebraska Department of Education (NDE)  
**RE:** Approval, Accreditation, and Accountability Rule Development / March 2021 Board Meeting Agenda Item

**Background:** The Nebraska Department of Education is required to accredit and/or approve all schools in the state, guided by current Rules 10 and 14. In Fall 2018, the State Board of Education directed the NDE to begin a process for revision and reinterpretation of these rules. In response, the NDE is creating three separate, but interrelated rules of Approval, Accreditation, and Accountability of public and non-public schools to replace Rules 10 and 14. More information can be found at this link:

#### AQuESTT System of Approval, Accreditation, and Accountability

<https://cdn.education.ne.gov/wp-content/uploads/2021/02/AQuESTT-System-of-Approval-Accreditation-and-Accountability.pdf>

**Purpose:** NDE is partnering with NASB to gather your feedback. We are planning a coordinated 15-minutes presentation via Zoom during the March Regular Board Meetings with all school districts and ESUs. Following this presentation each board member and superintendent/ESU Administrator will have the opportunity to provide feedback pertaining to the proposed change to Rules 10 and 14.

**Conclusion:** To accommodate the regular meeting dates of all boards, NASB/NDE will coordinate a presentation at 7:30 p.m. CT and again at 7:30 p.m. MT. The meeting dates include:

Monday -- March 1, 8, 15  
Tuesday -- March 2, 9, 16  
Wednesday -- March 10 & 17  
Thursday -- March 11 & 18

Following the presentation, every board member, superintendent and ESU administrator will receive a link to an online survey. This process has been designed to ensure that Nebraska's Boards of Education and administrators are engaged in the key changes and afforded the opportunity to provide your valued feedback.

Please watch for additional information from NASB.

With the new launch of Sparq Online Publishing we are now able to host your School Board policy manual online to make it easier and faster to use than ever before. Hosting your manual with Sparq Online Publishing will provide you with a fully searchable version of your present manual online, easily linked from your district website. In addition, all Nebraska legal references will be linked online directly from your individual policies, allowing administrators quick access to the relevant statutory language. Cross references to other relevant policies within the board policy manual will also be linked.

Through a password protected access, you can allow selected employees to make changes or additions to the online manual. Also, as your board works through its board agenda in Sparq Meetings, once the board approves new or revised policies and makes that entry into the meeting agenda, those policies will automatically flow through to your online manual to update it.

*Just imagine how greatly this will simplify the process of keeping your manual current!*

All this offers a huge improvement toward making your School Board policy manual more useful, more informative, and easier to search or revise in a rapidly changing educational environment.

## ... POLICY

Hacking of computer systems to steal personal data is becoming more common by the year. One of your district's responsibilities is the protection of any personal information on your network relating to employees and students. If your computer systems administrator believes a breach of security has occurred that may have caused or will cause loss or injury to anyone, the district has a responsibility to provide notice of that event to all persons affected by it. Every district should have a policy on computer and data security to deal with maintaining as secure a system as possible and notifying people in case of a systems breach.
