2020 STATE EDUCATION CONFERENCE | LIVE! NOVEMBER 18-20

STREAMING ON DEMAND THROUGH DECEMBER 31

GROWING GREATNESS, FROM THE COMFORTS OF HOME ...

A little different look to the State Education Conference this year. While not how we envisioned this year's Conference to look, we are still able to deliver 3-days of school leaders networking, sharing, and learning. Takeaways from this year's virtual Conference include:

Two engaging Pre-Conference sessions titled 'Risk Dial Turned Red' and 'A Silver Lining to Digital Learning in the COVID Era.'

40 breakout sessions

Commissioner Matt Blomstedt opened the conference looking back on the past year, and looking forward to the future.

A State of Your State Association presented by NASB's John Spatz, highlighting everything NASB is and does to help you become more interconnected as a community leader.

Exhibitor Engagement, Hollywood Squares, Networking and More!

Head to the State Education Conference page of
www.NASBonline.org now to ...

Register to view on demand, any and all sessions now through December 31, 2020.

Thank you to everyone who took the time to join us live, or plans to "attend" and view sessions throughout December. We look forward to seeing you face to face in 2021 and beyond! Mark your calendars now for the 2021 State Education Conference, scheduled for November 17-19, 2021, back at the CHI Health Center - downtown Omaha!

What's next? New year, same NASB Officers.

At the annual NASB Delegate Assembly, which was held virtually this year, the assembly voted to renew the terms of the four NASB officers for an additional year. Keeping their current roles are:

- Stacie Higgins - President (Nebraska City Public Schools)
- Brad Wilkins - President-Elect (Ainsworth Community Schools)
- Kim Burry - Vice President (Bayard Public Schools)
- Steve Blocher - Past-President (West Point Public Schools)

My name is Jan tenBensel and I am Chairman of the Nebraska Ethanol Board. In addition to that, I have served on the Cambridge Public Schools Board of Education.

While this is simply a brief summary of this project and I fail to mention all of the 100's of people that helped make this happen, I wanted to highlight the work of Dr. Hunter Flodman, Associate Professor of Practice, Department of Chemical & Biomolecular Engineering with UNL's College of Engineering. Without his chemistry know-how this project would have never been able to get off the ground. Dr. Flodman is also a product of public education in Nebraska as a graduate of Lakeview Public Schools!

This journey started in late March with a phone call from Jeff Carver at BASF. We discussed the shortage of hand sanitizer and how to encourage commercial production.

After conferring with Dr. Hunter Flodman, the Technical advisor, and Roger Berry of the Nebraska Ethanol Board we contacted the Governors office to begin figuring out a way to mass produce hand sanitizer as soon as possible, here in the state of Nebraska.

The decision was made to partner with the University of Nebraska at Lincoln at the Food Processing Center on Innovation Campus.

This began a whirlwind of procurement of raw materials, ingredients, processing equipment and containers. I called everyone I could think of who had supplies that could help.

Now, we had some barriers. We realized we could never pass Fire Marshal Code doing a project inside a university building, so we designed a "farmer style" mixing facility to go in a parking lot at campus, where a large tent was set up inside a secure fence.

Within a few days of that very first phone call, we were in production of UNL hand sanitizer.

In the early days, we did public distributions in hot spot communities and counties, such as South Sioux City, Grand Island, Hastings, Kearney, Lexington, among others. The idea was to get sanitizer to front line workers at businesses who had to be in contact with the public. Next, how do we get the sanitizer to the K-12 school systems? After contacting the ESUs we distributed in excess of 75,000 gals to the k-12 schools across Nebraska.

This is just a glimpse. In the end we produced in excess of hundreds of thousands of gallons of high quality hand sanitizer with a retail value of 20-30 million dollars all given away free of charge.

Without the help of my good friend and colleague, Dr. Hunter Flodman, this would have never been possible. There were many others who gave so much and did whatever was asked of them. This was a true effort of Nebraskans coming together to help Nebraska.

... POLICY

Policy 402.15 Staff Conduct With Students was recently revised to meet the requirements of LB1080 passed in this year's Legislative session. We first created this policy about 15 years ago when several news making incidents of inappropriate behavior between school staff and students were reported across the nation. These events are traumatic not just to the victims and their families, but to the entire community. Unfortunately, these types of incidents are still going on and the Legislature has gotten more prescriptive about its expectations. A specific definition of grooming was included in the statute and is now in the policy. The new statute also prohibits teachers from engaging in a dating or romantic relationship with a student or former student within one year of the student's graduation or end of enrollment.

... ENERGY PURCHASING

Energy prices the last few months have been higher than seen previously but are expected to trend downward as we go through the winter months due to the very soft economy. This would be even more dramatic were it not for the huge shift to the use of natural gas in electricity production away from coal in the last few years. Natural gas is now the largest source of electricity generation in the U.S. This trend was predicted by our marketing consultants for NJUMP and CJUMP many years ago, and they are one of the primary reasons that our natural gas consortiums have continued to provide a great money-saving resource year after year for our member schools.
